THE SEVEN SECRETS TO YOUR CONSCIOUS CREATIONS

By Shannon Burnett-Gronich

Imagine with me for a moment that you are surrounded by Successful Role Models. How would your life change? Imagine that you can easily ask others for help. Would you be able to accomplish more? Imagine that the worst thing that ever happens to you becomes one your biggest blessings! How would you view that experience now?

At the age of 25, when most are enjoying their friends and exploring endless opportunities, I suddenly became a single Mom with two young children. I was completely unprepared for this experience. I was forced to learn how to survive on my own, and eventually took a job in sales. I did it all - endless marketing letters, cold calls, networking meetings....I even knocked on doors hoping someone would buy from me. I was miserable in this work environment, and felt there must be a better model for doing business.

I began attending business networking events, but felt absolutely out of place. Have you attended meetings where everyone was completely focused on their business and really didn't care about helping each other? Me too! Then something amazing happened. After attending another networking meeting, something shifted drastically. I had a profound moment that would change the course of my life forever, as well as those that I would come in contact with. I thought to myself "What if I could create a company in which every business interaction was a cooperative partnership of heartfelt proportions? Could I lead my community and then the entire business world into a better way? Was the business world ready for this? And was I worthy of this responsibility"?

I started writing down every idea I could think of to bring my vision to reality. I became a woman on a mission to bring those missing pieces into the business and networking world. I knew there were others who must have felt as I did and believed that if I began to act on my vision, others would be eager to get on board.

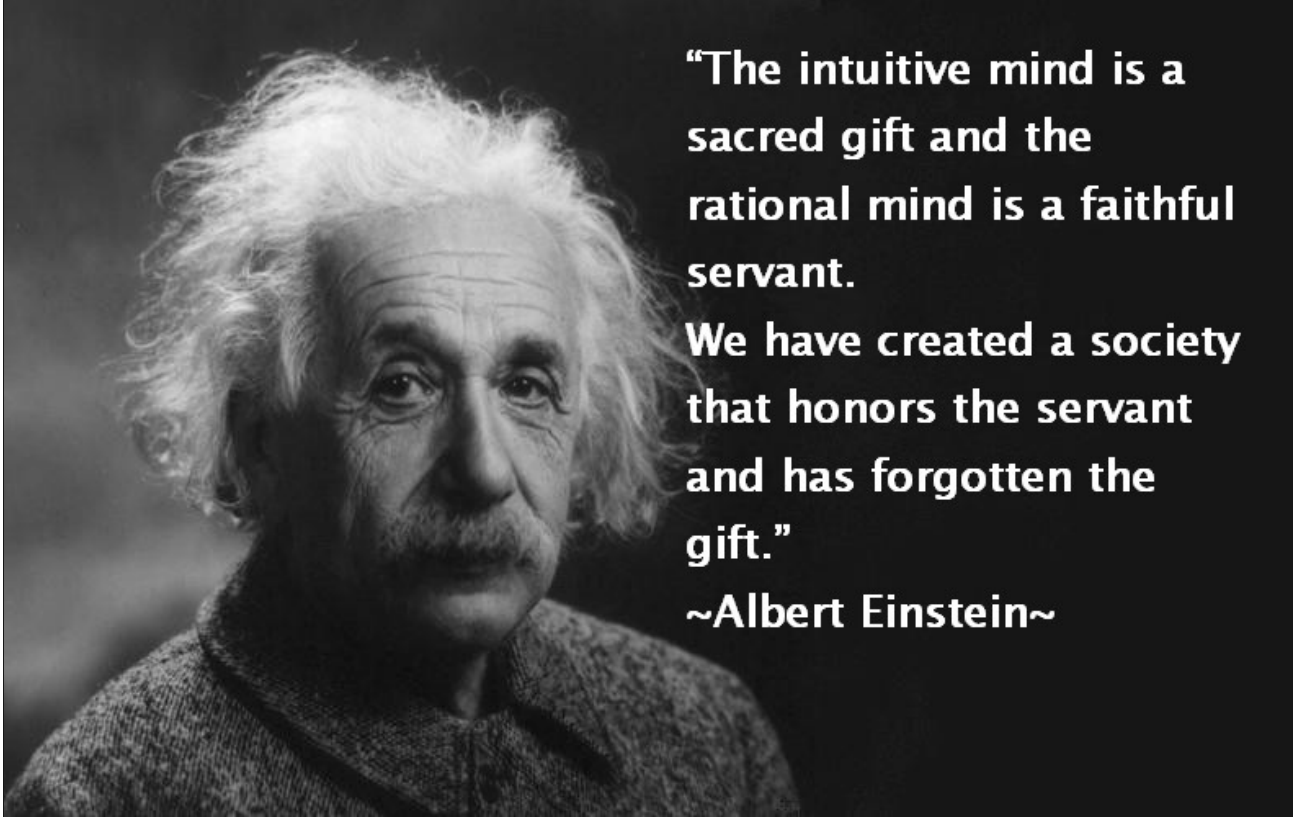

So I began creating [Conscious Living Space](#) (CLS). I saw it as a vehicle to bring the heart and soul into networking, to lead and support personal growth, to teach others the power of collaboration. CLS was destined to create a community in which individuals and businesses could create and build strong, lasting relationships.

Now it was time to take these powerful concepts and actually put them into action. I knew I couldn't do this alone. I was in my twenties with absolutely no experience in building a business, especially one with a vision to change the world of business. I needed to inspire powerful, dynamic and influential leaders to join me in my mission.

Who was I to ask the "movers and shakers" in the business world to support me in my vision for CLS? I was a single mom with two kids on welfare. I was repeatedly challenged with financial limitations. I was constantly worrying about money and how I was going to provide for my children. I lived with never-ending stress and an overwhelming sense of powerlessness. Why would they listen to me?

Some would say that there was no way I was ever going to pull this off. But no matter what other people and my own limited mind were trying to tell me, I knew I had to do this. And I did! CLS is growing everyday and continues to be committed to its vision for changing the world. It has not always been easy, however I wouldn't take one second of it back - and that includes being a single Mom on welfare. I have learned "Priceless" lessons in the creation of Conscious Living Space. Are you truly ready to make a difference in your life? Do you have a big vision? Well then, get ready because I am going to share with you the Seven Secrets to Your Conscious Creations.

“The intuitive mind is a sacred gift and the rational mind is a faithful servant.

We have created a society that honors the servant and has forgotten the gift.”

SEVEN SECRETS TO YOUR CONSCIOUS CREATIONS

Find Successful Role Models - *Success comes easily when you commit to finding role models who are living the life you desire.* Find an expert in every area of your life including finances, personal growth, family life, career and your health. Do what they do and you will achieve the same amazing results.

Be open and willing to ask others for help - *None of us are truly ever alone.* We have to learn to ask for help whenever we need it. When you can connect with the right people who are willing to help you, you can create a powerful mastermind with endless resources at your fingertips. The answer is always "No" unless you Ask.

Be willing to stretch past your comfort zones - *If you are not growing, you are dying!* Stretching yourself and moving past your comfort zones is what living an outstanding life is about. Commit to being a continual student of life, knowledge and experience.

Always follow your heart, even when it doesn't make sense. - *Your logical mind will always tell you that you can't do something.* If you look at the great visionaries, such as Albert Einstein, Oprah Winfrey, Gandhi and Henry Ford, they weren't limited by the human mind. If they had listened to their logical mind, where would we be today? Follow your heart, it will never lead you in the wrong

direction. The world is waiting for great visionaries just like you.

Be the power and voice for change. - *It doesn't matter the size of your vision, what matters is the commitment and heart behind it.* Everything is a choice, including your thoughts, feeling, actions and reactions. Choose to make a difference in the world, even if it is to share a smile with a stranger or donate your time, talents or treasures to a great cause.

The BIGGER the Challenge, the BIGGER the Blessings - *The worst thing that ever happened can become one of your biggest blessings from personal growth to financial success.* Have you ever had a horrible experience - divorce, loss of a loved one, financial hardship - that you thought was the worst thing that could ever happen to you? Then one day something dramatically changed? Pay close attention to those BIG Challenges, for those will be some of your greatest teachers and will lead you to your greatest breakthroughs.

Realize the Only Difference Between You and I is our THOUGHTS - *We are human beings choosing our different experiences.* Perception, Judgment and Separation are thoughts that society has created without really knowing the truth. They have no reality or place in today's world. It is time to let go of what we believe to be the "right" way and open our hearts in each moment. The truth is we all have hearts, feelings and dreams. And we are here to experience love, joy, happiness and freedom. When you realize the only difference between You and I is our thoughts, you open yourself up to a new world of unlimited possibilities for all.
