Creating a “Power Bio” is essential for building your press kit and attracting publicity and speaking opportunities.

Write each of the 12 following items on a separate piece of paper and hang them on the wall or somewhere in eyes view so you can begin adding to them immediately! Remember to add ALL items that come to your mind, even if you think it doesn't apply to your business or life right now.

There is usually a way with “Power Words” to create an amazing portrayal of who you are and what our qualifications are to attract the media to you.

It is time to brag!!!

This can be a wonderful internal exercise as well because one of the hardest things for most people to do is to say good thing about themselves.

Enjoy this powerful process!!
